GENERAL CONDITIONS

- 1) Valley Oil Co., Inc. reserves the right to reject the Service Plan requested if, on inspection, it deems any portion of the equipment to be covered not to be in proper working order or unsuitable for servicing.
- 2) Replacement parts shall be the same, or equal, and all subject to the availability from normal sources of supply.
- 3) During the term of this agreement Valley Oil will provide dependable, prompt emergency service 24 hours/day, 7 days/week, 365 day/year. Emergency service constitutes: No heat, fuel leaks, no hot water or dangerous situations. Service calls not covered under this agreement will be invoiced at prevailing rates including time and a half for service after regular service hours – 8:00 am - 4:30 pm Monday thru Friday.
- 4) This Agreement does not cover the following:
 - A) Replacement of any defective parts or portions of the heating system not specifically included in the replacement parts schedule of this Agreement.
 - B) The cost of labor and material for work performed on the following equipment: Non cartridge circulators, bearings, zone valves, expansion tank, combustion chamber, relief valves, fuel storage tanks, heat piping and accessories, domestic hot water coils, low water cut offs, turbulators, oil lines and valves, clock/programmable thermostats, manual reset controls, blown fuses, any aquastat control, blower fans, high limit relay/aquastat.
 - C) Damage from restricted or plugged chimney, oil tanks and oil lines, poor draft conditions.
 - D) Obsolete parts, air cooling-air conditioning equipment, electronic air cleaners, kick space heaters.
 - E) Circuit breakers, switches off, thermostats not set properly.
 - F) Water feeder and low water cut off controls on domestic hot water system.
 - G) Blue Ray heating equipment.
 - H) Air handlers.
 - I) Induced draft systems.
 - J) Remote monitoring systems.
 - K) Anti freeze - can be checked on request, for a minimal charge.
 - L) Related problems with the connection of anti-freeze.
- 5) Valley Oil assumes no responsibility for heating failure or damage when a home or building is unoccupied or when unable to gain entry on requested delivery/service calls. Valley Oil shall not be responsible for secondary or consequential damages nor shall it be responsible for loss or damage due to or resulting from defective parts or from delays or failure to render service due to conditions beyond its control.
- 6) Valley Oil assumes no liability for oil tank failure, oil line failure, vent or fill pipe failure, fill or vent piping, resulting in petroleum spillage. Valley Oil assumes no liability for loss or damage due to inaccessible equipment. Example: Buried tanks, underground oil lines, equipment blocked by household storage, etc. Valley Oil assumes no liability for the condition and maintenance of the fuel tank or oil line linkage.
- 7) Valley Oil reserves the right to terminate this Agreement, without notice, if the purchaser permits any person other than an employee or authorized agent of Valley Oil to render service or adjustments to the equipment.
- 8) This agreement does not cover acts of God, fire damage, flooding or other water damage, electrical failure, defects in piping, radiation, domestic hot water accessories, etc.
- 9) This plan is not pro-rated or refundable, and can't be assigned without written consent.
- 10) This contract is only valid if the customer is an Automatic Delivery customer purchasing all their fuel oil from Valley Oil.
